PRESENTING KL INTERNATIONAL A
MALAYSIA AIRLINES' AMAZ

While others are dreaming up new airports and comforts for travellers, Malaysia Airlines is proud to introduce KL International Airport, our new home base.

Here, we've brought together everything you could ever need to make travel as smooth, secure and satisfying as possible. So you enjoy a new standard of ground service to rival our world-class, award-winning inflight service.

For starters, there are more check-in counters, so long queues are a thing of the past.

There are three Malaysia Airlines Golden Lounges for our First and Business Class passengers, with the crown jewel being the Golden Lounge at the Satellite Building.

With more than 4,000 square metres of space, it's larger than a football

field and is the world's largest airport passenger lounge. It does not just incorporate the every day side of things like a fully-equipped gym, a computer centre, lap-top ports and an audio-visual area. But also houses slumber rooms, a mini gym, showers, sauna, a nursery with children's rumpus area, a coffee bistro, computer games corner, prayer rooms, and a sumptuous choice of pre-flight dining.

TING KL INTERNATIONAL AIRPORT.

INES' AMAZING NEW HOME.

Outside, there are many distractions for travellers. Duty-free shopping
that's second to none, a large choice of food outlets and the natural
beauty of 'the airport within a forest,' to name but three.

For business travellers chasing a deadline, we've added a fast track
service* to speed you through immigration. And bags wait for you at the
carousels, not the other way round.

We could go on and on about the innovations. But we think you'd
like to discover them yourself the next time you fly Malaysia Airlines.
For more information, please call your travel agent or Malaysia Airlines.

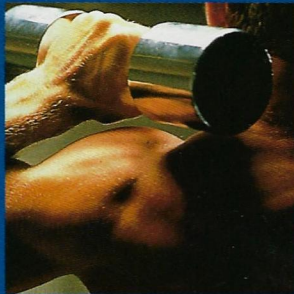

*First and Business Class passengers only.
